SW Engineering CSC648/848 Fall 2022
Milestone 3 Feedback summary
Section 2 - Team 6

Garage.io
Project description

Thomas (tmichel@sfsu.edu)	**Team lead / Back-end lead / DBA**
Mohammad (malhabli@mail.sfsu.edu)	**Front-end lead**
Joe (jsand@sfsu.edu)	**Back-end Engineer**
Tyler (tfulinara@sfsu.edu)	**Back-end Engineer**
Nathnael (ngebre@sfsu.edu)	**Back-end Engineer / Github Master**
Young (yso@mail.sfsu.edu)	**Front-end Engineer**
Jiaming (jzhao19@sfsu.edu)	**Front-end Engineer**

Revision history

19/11/2022	Milestone 3 delivery version

Summary of feedback and tasks to do

- Add specific job categories to the search filter (9 trends ai, ml, etc) probably a dropdown menu
- Messaging between students and employer (notifications, etc) trigger matches through backend (tags, titles, skills, keywords) or automatic matching
- Finish linking student/company information from backend with frontend (profile picture, bio, etc) uploading resume, cover letter
- Finish administrator dashboard (matching, connecting with login)
- Include link in "about" for github repository
- Password hashed (include in documentation)
- Route everything

List of tasks the team chose to focus on and implement

- Finish linking student/company information from backend with frontend (profile picture, bio, etc) uploading resume, cover letter
- Finish administrator dashboard (matching, connecting with login)
- Password hashed (include in documentation)
- Route everything
- Add specific job categories to the search filter (9 trends ai, ml, etc)
